

Junkyard Dog

Synopsis: In Middle America, a psychopath uses a lone highway to supply his cannibal cravings. A young woman, 8 months pregnant, and her lover find themselves taken hostage and trapped by the killer's junkyard labyrinth. Joined by a group of unfortunate college kids, they fight to avoid their fate as the next meal for this mass murderer's army of man-eating, cross breded mutts. Will her unfaithful fiancé find them in time and rescue her and their new born child... or will they all serve as the junkyard's next meal?
